

## Pasco CTST January 28, 2015 Meeting Minutes

Allen Howell, Vice Chair welcomed everyone and led the meeting. Introductions were made. Lt. Small made a motion to approve the minutes and Carrie Wilson seconded. December minutes were approved as presented.

Gary Tait discussed his education presentation and the Middleton Tragedy in Hillsborough County and the Hillsborough County School District's decision to have him train all of their School Resource Officers with his presentation so that the SRCs will be able to share the information with all of the students throughout the entire school, and not just the Driver's Education classes like Gary has been doing. This same type of training will be going on in the Pinellas School District so that the SRCs will also be able to reach all of the students across the entire School District also. In Pasco County Gary is contacting all of the school's SADD clubs to see if that would be a way to start off a conversation.

District 7 Traffic Safety Webinar started today - register and attend as the topics interest you.

### Old Business -

- Photonix striping has been completed.
- Pedestrian crashes were still up last month (November).
- The Health Department's Red Thumb Campaign went very well.

### New Business -

- There is something amiss on US 19 construction near Whiskey Ave? The NB needs a SB turn lane (this made no sense to me at all...)
- Kitten Trail – Bicyclist was struck and killed last evening- woman left the scene; she said she thought she had hit a mail box.
- March is Florida Bike Month. Health Department is doing a Curious George event in the Park- they will be giving away helmets.
- Dave Carr had information about permits.
- March 30<sup>th</sup> is the Statewide CTST meeting at the TPepin Building from 10 am – 2 pm.

Community Traffic Safety Team
