MINUTES

Welcome and introductions were made. Minutes were reviewed and approved as presented.

OLD BUSINESS

Safe Routes to School was able to do several different make up days for the rained out Bike to School Day. This was fortuitous in the instance that they were able to attend more than a single school as the events occurred on separate days.

Carrie talked about the new traffic count system. It is even able to pick up old information. The system runs very well, collects speed, direction, etc.

Pasco Traffic Ops has been working closer with Planning section so that both have a better idea on upcoming development. The traffic count system has been essential in assisting with this. The system is currently "in house", but they are looking into a self-service aspect on the website so that many people are able to have access to the data.

NEW BUSINESS

Education

Safe Routes to School has reached their goal and is finishing the school year. They are awaiting grant information. There may be some staffing adjustments coming.

Safe Kids battle of the Belts was won by Gulf High School. There seems to be a drop in seatbelt usage.

Lucy talked about the Silent Rides in Dade City.

Dave Cruz reported about the Basic Rider Program upgrade. Discussion was had.

Enforcement

Click It or Ticket is in full affect. FHP has written one ticket, PCSO has written 47 so far... stay tuned.

Thomas Banks talked about Click It or Ticket, Pre Click It or Ticket was 88%, there is hope for higher than 90%. There are more Law enforcement agencies in the DUI categories. Discussion was had about new Law Enforcement Liaison alignment with DOT Districts.

Engineering

Railroad work on 54 and 41. Mike Zinn reported that it will be happening Friday July 22, the turn lanes will be shut down. A full SR 54 road closure will occur on Saturday July 23rd. Discussion was had.

Bala talked about the 3 Pasco safety project submissions.

Dave Skrelunas discussed some specifics, including a recent fatality. Installed speed feedback signs which has actually caused a reduction in speed. Discussion about possible audible center lane markings.

Community Traffic Safety Team
of Pasco County

Dave Cruz talked about taking a group of licensed students on a ride. He talked about a possible roundabout at 41 and 52.

Rhonda announced the Statewide CTST meeting to be held on June 8th in Tampa.

There is an event in Dade City on June 25th with the BPAC.

Discussion was had on various events.
